Here's where it starts to slip backwards into the prior year.

Here is the first instance where the entire first pay of the new year is actually two weeks of the prior year.

And here is where the actual first pay for the new year is paid before the new year even starts.

This is where it gets so far ahead of itself that it is all done - it has paid the full year's salary by the end of May!

260 days 25% of the time, 261 days - 62%, 262 days - 13%
